Brand Philosophy

Ever wondered why the colour of your tongue changes when you lick a Lollipop?

Well, here's the culprit - **Synthetic Food Colours**
Studies show that these synthetic colours can also cause allergies & health risks.

So, wouldn't it be great if you could indulge in these bright & delicious confections without worrying about the harmful side effects of synthetic colours and chemical food additives?

Super Tasty Our offering

KandeeFactory makes confections using natural colours grown from fruits and flowers grown sustainably on the cloud kissed pristine slopes & valleys of the Western Ghats.

Beetroot

Paprika

Spinach

Turmeric

CC
**Sport a healthy pink
tongue, always!**

What makes us, us?

Our candies & confections are:

-  Made using an innovative technology that extracts water from thin air which then gets converted to drinking water.
-  Made by an all women's team.
-  100% Vegan, Cruelty free and do not use any added preservatives.

And that's how we add our bit to the green footprint.
